## 2. TIPO DI AIUTO - LIST OF TYPES OF AID

Type	Sub-type	Description	Clarification
<b>A</b>		<b>Budget support</b>	For contributions under this category, the donor relinquishes the exclusive control of its funds by sharing the responsibility with the recipient.
	<b>A01</b>	<b>General budget support</b>	<p>Unearmarked contributions to the government budget including funding to support the implementation of macroeconomic reforms (structural adjustment programmes, poverty reduction strategies).</p> <p>Budget support is a method of financing a recipient country's budget through a transfer of resources from an external financing agency to the recipient government's national treasury. The funds thus transferred are managed in accordance with the recipient's budgetary procedures. Funds transferred to the national treasury for financing programmes or projects managed according to different budgetary procedures from those of the recipient country, with the intention of earmarking the resources for specific uses, are therefore excluded.</p>
	<b>A02</b>	<b>Sector budget support</b>	Sector budget support, like general budget support, is a financial contribution to a recipient government's budget. However, in sector budget support, the dialogue between donors and partner governments focuses on sector-specific concerns, rather than on overall policy and budget priorities.
<b>B</b>		<b>Core contributions and pooled programmes and funds</b>	For contributions under this category, the donor relinquishes the exclusive control of its funds by sharing the responsibility with other stakeholders (other donors, NGOs, multilateral institutions, Public Private Partnerships). The category covers both core contributions (B01 and B02), and pooled contributions with a specific earmarking (B03 and B04).
	<b>B01</b>	<b>Core support to NGOs, other private bodies, PPPs and research institutes</b>	<p>Funds are paid over to NGOs (local, national and international) for use at the latter's discretion, and contribute to programmes and activities which NGOs have developed themselves, and which they implement on their own authority and responsibility. Core contributions to PPPs, funds paid over to foundations (e.g. philanthropic foundations), and contributions to research institutes (public and private) are also recorded here.</p> <p>Annex 2 of the DAC Directives provides a list of INGOs, PPPs and networks core contributions to which may be reported under B01. This list is not exclusive.</p>
	<b>B02</b>	<b>Core contributions to multilateral institutions</b>	<p>These funds are classified as multilateral ODA (all other categories fall under bilateral ODA). The recipient multilateral institution pools contributions so that they lose their identity and become an integral part of its financial assets.</p> <p>See Annex 2 of the DAC Directives for a comprehensive list of agencies core contributions to which may be reported under B02 (Section I. Multilateral institutions).</p>
	<b>B03</b>	<b>Contributions to specific-purpose programmes and funds managed by international organisations (multilateral, INGO)</b>	In addition to their core-funded operations, international organisations set up and raise funds for specific programmes and funds with clearly identified sectoral, thematic or geographical focus. Donors' bilateral contributions to such programmes and funds are recorded here, e.g. "UNICEF girls' education", "Education For All Fast Track Initiative", various trust funds, including for reconstruction (e.g. Afghanistan Reconstruction Trust Fund).

	<b>B04</b>	<b>Basket funds/pooled funding</b>	<p>The donor contributes funds to an autonomous account, managed jointly with other donors and/or the recipient. The account will have specific purposes, modes of disbursement and accountability mechanisms, and a limited time frame.</p> <p>Basket funds are characterised by common project documents, common funding contracts and common reporting/audit procedures with all donors.</p> <p>Donors' contributions to funds managed autonomously by international organisations are recorded under B03.</p>
<b>C</b>		<b>Project-type interventions</b>	<p>N.B. Within this category, members able to do so are requested to report the aggregate amount used for financing donor experts/consultants on Table DAC11.</p> <p>Where the activity consists solely of experts' costs, report under category D.</p>
	<b>C01</b>	<b>Project-type interventions</b>	<p>A project is a set of inputs, activities and outputs, agreed with the partner country*, to reach specific objectives/outcomes within a defined time frame, with a defined budget and a defined geographical area. Projects can vary significantly in terms of objectives, complexity, amounts involved and duration. There are smaller projects that might involve modest financial resources and last only a few months, whereas large projects might involve more significant amounts, entail successive phases and last for many years. A large project with a number of different components is sometimes referred to as a programme, but should nevertheless be recorded here.</p> <p>Feasibility studies, appraisals and evaluations are included (whether designed as part of projects/programmes or dedicated funding arrangements).</p> <p>Aid channelled through NGOs or multilaterals is also recorded here. This includes payments for NGOs and multilaterals to implement donors' projects and programmes, and funding of specified NGOs projects. By contrast, core funding of NGOs and multilaterals as well as contributions to specific-purpose funds managed by international organisations are recorded under B.</p> <p>* In the cases of equity investments, humanitarian aid or aid channelled through NGOs, projects are recorded here even if there was no direct agreement between the donor and the partner country.</p>
<b>D</b>		<b>Experts and other technical assistance</b>	This category covers the provision, outside projects as described in category C, of know-how in the form of personnel, training and research.
	<b>D01</b>	<b>Donor country personnel</b>	Experts, consultants, teachers, academics, researchers, volunteers and contributions to public and private bodies for sending experts to developing countries.
	<b>D02</b>	<b>Other technical assistance</b>	<p>Provision, outside projects as described in category C01, of technical assistance in recipient countries (excluding technical assistance performed by donor experts reported under D01, and scholarships/training in donor country reported under E01).</p> <p>This includes training and research; language training; south-south studies; research studies; collaborative research between donor and recipient universities and organisations; local scholarships; development-oriented social and cultural programmes. This category also covers ad hoc contributions such as conferences, seminars and workshops, exchange visits, publications, etc.</p>
<b>E</b>		<b>Scholarships and student costs in donor countries</b>	
	<b>E01</b>	<b>Scholarships/training in donor</b>	Financial aid awards for individual students and contributions to trainees.

		<b>country</b>	
	<b>E02</b>	<b>Imputed student costs</b>	Indirect ("imputed") costs of tuition in donor countries.
<b>F</b>		<b>Debt relief</b>	
	<b>F01</b>	<b>Debt relief</b>	Groups all actions relating to debt (forgiveness, conversions, swaps, buy-backs, rescheduling, refinancing).
<b>G</b>		<b>Administrative costs not included elsewhere</b>	
	<b>G01</b>	<b>Administrative costs not included elsewhere</b>	Administrative costs of development assistance programmes not already included under other ODA items as an integral part of the costs of delivering or implementing the aid provided. This category covers situation analyses and auditing activities. As regards the salaries component of administrative costs, it relates to in-house agency staff and contractors only; costs associated with donor experts/consultants are to be reported under category C or D01.
<b>H</b>		<b>Other in-donor expenditures</b>	Groups a number of contributions that do not give rise to a cross-border flow.
	<b>H01</b>	<b>Development awareness</b>	Funding of activities designed to increase public support, i.e. awareness in the donor country of development co-operation efforts, needs and issues.
	<b>H02</b>	<b>Refugees in donor countries</b>	Official sector expenditures for the sustenance of refugees in donor countries during the first twelve months of their stay.

### 3. GRADO DI SLEGAMENTO

La definizione di aiuto legato/slegato è strettamente connessa alla partecipazione, più o meno ampia, che viene consentita alle imprese dei diversi Paesi (in via di sviluppo e non) nel processo di gara per l'acquisto dei beni e servizi necessari per la realizzazione dell'iniziativa (gara più o meno aperta). Non sono significativi: il paese in cui si svolge la gara, il Paese responsabile della selezione, il Paese di provenienza dell'impresa che, alla fine della procedura di gara, si aggiudica la gara stessa.

Slegato	<p>Se il progetto consente al Paese beneficiario di reperire beni e servizi interamente e liberamente in qualunque Paese. <i>Definizione OCSE: "Transactions are considered tied unless the donor has, at the time of the aid offer, clearly specified a range of countries eligible for procurement which meets the tests for "untied" or "partially untied" aid. All loans and grants that do not fall under the definition of untied or partially untied aid are classified as tied aid, whether they are tied formally or through informal arrangement."</i></p>
Legato	<p>Se il progetto prevede il rispetto di particolari condizioni per la realizzazione dello stesso stabilite dal Paese beneficiario (acquisto di beni e servizi in un determinato Paese, anche eventualmente il Paese del donatore e del beneficiario stesso).</p> <p><i>Untied aid is defined as loans and grants whose proceeds are fully and freely available to finance procurement from all OECD countries and substantially all developing countries. Untied aid is taken to include:</i></p> <ul style="list-style-type: none"> <li><i>• budget and balance of payments support (where freely usable foreign exchange is provided to the recipient);</i></li> <li><i>• local cost financing for the procurement of goods and services on the local market. This comprises goods and services bought from a local enterprise which produces them, or carried in the stocks of a local enterprise for sale to all comers, irrespective of the fact that they may originally have been imported. An example of the procurement of services would be payments of wages and salaries made to locally recruited project personnel. (Such financing is classified as untied since the corresponding foreign exchange is available to the recipient economy to purchase imports from whatever source it thinks fit.)</i></li> <li><i>• action relating to debt (debt reorganisation that, by enabling the recipient to forgo making service</i></li> <li><i>• payments, makes the corresponding amount of foreign exchange freely available).</i></li> <li><i>• contributions to <b>non-governmental organisations</b> and official funds in support of, or intended for, direct equity investment and that are recorded as ODA, providing that there are no formal or informal restrictions which would cause them to be considered as in effect tied</i></li> </ul>
Parzialmente legato	<p>Se il progetto vincola il Paese beneficiario a reperire beni e servizi nel Paese donatore e in un numero ristretto di Paesi, che include anche tutti i Paesi in via di sviluppo.</p> <p><i>Partially untied aid is defined as loans and grants which are tied, contractually or in effect, to procurement of goods and services from a restricted number of countries which must include substantially all developing countries and can include the donor country.</i></p>

## 4. SETTORI OCSE/DAC:

La scheda di finanziamento deve obbligatoriamente riportare almeno un settore di intervento, ed il relativo codice, scelto nella lista dei settori riportati a seguire.

- Indicare massimo tre macro-settori, specificando per ciascun settore l'importo corrispondente e la relativa percentuale sull'importo complessivo.
- Il settore di intervento dovrà essere scelto in funzione della specifica area che il progetto intende sostenere, indipendentemente dal mezzo utilizzato per realizzarlo.
- I progetti di formazione o di ricerca in settori specifici (es. formazione sulla riduzione del rischio di catastrofi) dovranno essere classificati nel settore cui sono diretti (es. *Disaster prevention and preparedness*)
- Inoltre si noti che i progetti di emergenza ricadono principalmente nel settore Humanitarian AID e nei relativi sotto settori dedicati. Secondo la descrizione dell'OCSE DAC, infatti, "l'aiuto umanitario è normalmente finanziato da fondi dedicati alle emergenze e al loro immediato seguito e/o alla loro prevenzione o prontezza operativa, e i fondi da tali stanziamenti sono il criterio principale per riportare le spese come aiuto umanitario".

DAC CODE	CRS CODE	DESCRIPTION	Clarifications / Additional notes on coverage
<b>700</b>		<b>HUMANITARIAN AID</b>	Within the overall definition of ODA, humanitarian aid is assistance designed to save lives, alleviate suffering and maintain and protect human dignity during and in the aftermath of emergencies. To be classified as humanitarian, aid should be consistent with the humanitarian principles of humanity, impartiality, neutrality and independence.
<b>720</b>		<b>Emergency Response</b>	An emergency is a situation which results from man made crises and/or natural disasters.
	72010	Material relief assistance and services	Shelter, water, sanitation and health services, supply of medicines and other non-food relief items for the benefit of affected people and to facilitate the return to normal lives and livelihoods; assistance to refugees and internally displaced people in developing countries other than for food (72040) or protection (72050).
	72040	Emergency food aid	Food aid normally for general free distribution or special supplementary feeding programmes; short-term relief to targeted population groups affected by emergency situations. Excludes non-emergency food security assistance programmes/food aid (52010).
	72050	Relief co-ordination; protection and support services	Measures to co-ordinate delivery of humanitarian aid, including logistics and communications systems; measures to promote and protect the safety, well-being, dignity and integrity of civilians and those no longer taking part in hostilities. (Activities designed to protect the security of persons or property through the use or display of force are not reportable as ODA.)
<b>730</b>		<b>Reconstruction relief and rehabilitation</b>	This relates to activities during and in the aftermath of an emergency situation. Longer-term activities to improve the level of infrastructure or social services should be reported under the relevant economic and social sector codes. See also guideline on distinguishing humanitarian from sector-allocable aid.
	73010	Reconstruction relief and rehabilitation	Short-term reconstruction work after emergency or conflict limited to restoring pre-existing infrastructure (e.g. repair or construction of roads, bridges and ports, restoration of essential facilities, such as water and sanitation, shelter, health care services); social and economic rehabilitation in the aftermath of emergencies to facilitate

		transition and enable populations to return to their previous livelihood or develop a new livelihood in the wake of an emergency situation (e.g. trauma counselling and treatment, employment programmes).
<b>740</b>	<b>Disaster prevention and preparedness</b>	See codes 41050 and 15220 for prevention of floods and conflicts.
74010	Disaster prevention and preparedness	Disaster risk reduction activities (e.g. developing knowledge, natural risks cartography, legal norms for construction); early warning systems; emergency contingency stocks and contingency planning including preparations for forced displacement.

## 6. 7a - POLICY OBJECTIVES OCSE DAC – GENDER EQUALITY MARKER

TEMA	Definizione
<p><b>GENDER EQUALITY</b></p> <p>Valori ammessi:</p> <ul style="list-style-type: none"> <li>• Principal Objective,</li> <li>• Significant Objective,</li> <li>• Not targeted</li> </ul>	<p>Un progetto dovrebbe essere classificato come “<b>Gender Equality (Principal o Significant Objective)</b>” se è orientata al progresso della valorizzazione del ruolo delle donne o a ridurre la discriminazione basata sul sesso.</p> <p>Va applicato a tutti i progetti bilaterali e multilaterali ad eccezione dei costi amministrativi. I progetti classificati sotto il settore 15170 e 15180 hanno per definizione un valore dell'indicatore pari a Obiettivo Principale. Vedi DCD/DAC(2016)3/ADD2 pagg. 37 e seguenti.</p> <p>Come assegnare i valori:</p> <ul style="list-style-type: none"> <li>• <b>Not targeted:</b> progetti e programmi in cui non è presente alcun obiettivo di uguaglianza di genere. Attenzione! Questo valore NON può essere dato di default a tutti i progetti, ma solo nel caso in cui non siano presenti interventi di eguaglianza di genere. In caso non sia possibile stabilire se sono presenti attività di eguaglianza, il campo andrà lasciato vuoto.</li> <li>• <b>Significant Objective:</b> l'uguaglianza di genere è un obiettivo importante e intenzionale, ma non è la ragione principale all'origine del programma. L'obiettivo di uguaglianza di genere deve essere esplicito e documentato, non può essere implicito o assunto. Il progetto, oltre ad avere altri obiettivi, è disegnato per avere un impatto positivo sull'uguaglianza di genere e/o sull'empowerment delle donne, riducendo le discriminazioni e disuguaglianze o incontrando bisogni specifici di genere. Un programma/progetto con valore “significant objective” deve avere tutti i seguenti requisiti: <ul style="list-style-type: none"> <li>○ Un'analisi di genere realizzata ad hoc sul progetto/programma;</li> <li>○ I risultati di questa analisi sono riflessi sul disegno del progetto e l'intervento segue un approccio “do no harm”;</li> <li>○ Presenza di almeno un obiettivo esplicitamente rivolto all'uguaglianza di genere con almeno un relativo indicatore (o un impegno in tal senso se i risultati non sono stati ancora elaborati al momento dell'immissione del valore);</li> <li>○ I dati e gli indicatori sono disaggregati per sesso, laddove possibile;</li> <li>○ Esiste un impegno per il monitoraggio dei risultati di uguaglianza di genere;</li> </ul> </li> <li>• <b>Principal Objective:</b> l'uguaglianza di genere è l'obiettivo principale ed è fondamentale nel disegno del programma/progetto e dei risultati attesi. Il programma/progetto non sarebbe stato intrapreso senza tale obiettivo di uguaglianza di genere. Un programma/progetto con valore “principal objective” deve avere tutti i seguenti requisiti: <ul style="list-style-type: none"> <li>○ Un'analisi di genere realizzata ad hoc sul progetto/programma;</li> <li>○ I risultati di questa analisi sono riflessi sul disegno del progetto e l'intervento segue un approccio “do no harm”;</li> </ul> </li> </ul>

	<ul style="list-style-type: none"> <li>○ L'obiettivo principale del progetto/programma è il sostegno all'uguaglianza di genere e/o all'empowerment delle donne;</li> <li>○ I risultati misurano il progresso verso l'obiettivo di uguaglianza di genere attraverso degli indicatori di genere ad hoc.</li> <li>○ I dati e gli indicatori sono disaggregati per sesso, laddove possibile;</li> <li>○ Esiste un impegno per il monitoraggio dei risultati di uguaglianza di genere;</li> </ul> <p>L'analisi di genere e l'approccio del "do no harm" è obbligatorio per tutte le attività di genere per assicurare almeno che il progetto non perpetui o esacerbi le disuguaglianze di genere.</p> <p>Per definizione, il valore "significant objective" non è migliore di "principal objective". Il DAC raccomanda un approccio a due variabili, che combina interventi dedicati con interventi di mainstreaming.</p>
